

MEMORANDUM

TO: DEVELOPMENT COMMUNITY

VIA: CHRISTOPHER STEUBING, P.E., CFM, CITY ENGINEER *CLS*

FROM: RICHARD MANCILLA, E.I.T., CFM, ENGINEER II *RM*

DATE: OCTOBER 21, 2010

SUBJECT: DESIGN STANDARDS AMENDMENT NO. 6

Per Section 5-28 of the Development Code, the City Engineer may from time-to-time revise the Design Standards without Council action. The following amendments have been made to the City of Sugar Land's Design Standards for clarification purposes. Please share them with your peers and co-workers who may be doing work within the City of Sugar Land jurisdiction.

The construction details have been revised as follows to address conflicts with the Design Standards.

Sheet SL-02 – Corrections to typos on Storm Sewer Notes and revised note 4 under Water to correct paint type to Geo-Glen 301 Bright Silver.

Sheet SL-14 – Revised flush valve detail to reflect Geo-Glen 301 Bright Silver paint. City revised Bends, Tees and Plugs Chart to add sizes for 20", 24" and 30" pipes.

Sheet SL-20 – Corrected construction note typos on this page.

Sheet SL-23 – Revised Wheelchair Ramp details and detectable warning pavers details to reflect current TxDOT Standards.

Please go to the City of Sugar Land website and check the Engineering Department's page. On the left, you will see a link for Design Standards. You will be able to download all standards and details in PDF format. If you have any questions, please contact the Engineering Department at (281) 275-2780.
